SPECIAL PROVISION  
SECTION 105  
General Scope of Work  
(Environmental Requirements)

Instream Work shall not be allowed between the dates of **6/1 - 6/30 and 9/1 - 10/31.**  
(Instream work is allowed from **7/1 - 8/31 & 11/1 - 5/31**)

Stream Name(s) with Station #: **unnamed stream - Sta. 11+115**

Special Conditions: Instream work shall be conducted during low flows.

Instream work consists of any activity conducted below the normal high water mark.

All activities are prohibited (including placement and removal of cofferdams) below the normal high water mark and non low flow conditions during the instream work window restriction, except for the following:

- Work within a sealed and dewatered cofferdam. Maintenance pumping within a sealed cofferdam is also allowed.

No construction activity, whether temporary or permanent, is allowed that completely blocks a river, stream, or brook without providing downstream flow.

The contractor shall abide by all permits and conditions.
